FLOATING MINDS INFOTECH IT STAFFING

One among the leading IT staffing firms, we enable you to achieve and optimize the most strategic and variable component to business success—right people, with right skills, competencies, and attitudes. We are an unconventional technical staffing agency and our partnership model focuses on your unique needs— supporting short-term, seasonal or temporary IT staffing agencies requirements, providing contract-to-hire talent for project-based support with the option to hire the contractors as permanent employees, or finding the permanent top talent your company needs today.

STAFFING SERVICES TEMPORARY STAFFING

Temporary staffing is a great solution for those companies that need a flexible workforce. If your operations are seasonal or you take on short-term projects on a regular basis, temporary staffing can allow you to operate at peak efficiency regardless of your workload. We maintain a deep roster of potential temporary employees who are pre-screened and ready to begin work on short notice. This allows you to scale your staff number up when you need it without having unnecessary personnel costs when things slow down.

TEMP-TO-HIRE :

Many employers have spent dozens of hours screening, interviewing, and training a new employee, only to find that they're not the right fit for the company once they're hired. This can lead to problems throughout your company as lack of productivity and poor morale build. FLOATING MINDS INFOTECH's temp-to-hire services allow you to avoid the hassle associated with finding and screening a candidate, and also give you a probationary period so that you can be sure your new employee is the right fit for your team. During this probationary period, FLOATING MINDS INFOTECH handles payroll for you, so that you only have to complete internal onboarding processes when you're sure you've found a perfect fit.

PERMANENT PLACEMENT :

When you have an opening in a position that's mission critical, it's important that you find the right individual as quickly as possible. When you're responsible for running your entire business, it can be difficult to find the right person, and a quick decision can lead to the wrong hire. FLOATING MINDS INFOTECH is always on the lookout for outstanding candidates for sales, administration, management, and technical fields. When you have an important opening to fill, we can immediately schedule interviews with candidates that we've personally screened and selected based on your requirements. This allows you to keep your company fully staffed so that you can focus on your business.

SERVICES IN PERMANENT PLACEMENT

TEMP-TO-HIRE EMPLOYEES

Temp-to-hire employees are billed at temp rates during the probationary period and are subject to permanent employee rates if a client chooses to retain them once the probationary period ends.

PERMANENT EMPLOYEES

Permanent Employees are subject to a one-time fee equal to the Permanent Rate of their expected annual wages.

WHY CHOOSE US?

- Pay on Hourly Basis
- Faster Hiring ➤ 70+ Staffing Providers
- Performance-Oriented ➤ Experienced
- Customized Solutions ➤ Temporary Workforce Solution
- Permanent Employees ➤ Third-party payroll candidates
